Freskim Veliu

👤 Profile

Experienced PHP Developer specializing in Laravel and Livewire frameworks. Skilled in developing dynamic web applications, integrating APIs, and collaborating with front-end teams to create responsive web pages. Proficient in advanced CSS with SASS, database management with MySQL, and third-party library integration. Committed to clean, maintainable code and rigorous testing. Experienced in cloud deployment on AWS and Digital Ocean, with a focus on performance optimization and SEO strategies. Dedicated to providing exceptional technical support and ensuring seamless user experiences.

💼 Employment History

Senior PHP Developer at Proxify, Remote
December 2022 — March 2024

As a part of the core team at Proxify, I contributed significantly to the platform's development, ensuring it meets the highest standards of performance, scalability, and reliability.

- Led the development and optimization of backend services, ensuring high performance, scalability, and reliability using PHP and Laravel.
- Designed and implemented RESTful APIs to facilitate seamless integration with frontend applications and third-party services.
- Oversaw the design, implementation, and maintenance of complex database structures using MySQL, ensuring data integrity and optimizing query performance.
- Conducted regular code reviews to maintain code quality standards and provided mentorship to junior developers, fostering a culture of continuous improvement.
- Worked closely with cross-functional teams including frontend developers, product managers, and designers to deliver high-quality software solutions on time.
- Implemented automated testing frameworks to ensure the robustness of the codebase, and performed thorough debugging to resolve complex technical issues.

Team Leader- Web Development at Tenton, Pristina
July 2020 — Present

Currently leading 2 development projects using a dedicated team of 10 people.

- Designing and implementing Restful API services for mobile and web applications.

Albanian

- Collaborating with web designers and overseeing the entire site programming process using HTML, CSS (Bootstrap, Tailwind), PHP (Laravel, Livewire), JavaScript (jQuery, VueJs, Nuxt JS, Alpine JS), and MySQL.
- Ensuring the style, look, and feel of web pages using SASS, extending CSS with dynamic behaviors such as variables, mixing operations and functions.
- Testing and documenting code and project details to maintain high-quality standards.
- Providing guidance and mentorship to team members on web development issues.
- Ensuring websites have a consistent feel and look across all web properties.
- Leading the hosting of projects on AWS and Digital Ocean.
- Created reusable components library for the web application using Alpine Js, resulting in faster development time for new features.

Full-stack Developer at Tenton, Pristina
March 2017 — July 2020

- Building scalable web applications using PHP with Laravel and Livewire, focusing on clean and maintainable code.
- Designing and integrating APIs for enhanced functionality and seamless communication between services.
- Maintaining high code standards through comprehensive documentation, version control, and peer code reviews.
- Conducting thorough testing and debugging processes to ensure the delivery of high-quality, error-free software.

Full-stack Developer at AdaptivIT, Pristina
July 2015 — March 2017

- Developed, tested, and maintained current systems written in PHP and Joomla.
- Responsible for installing, configuring and maintaining Laravel, PHP, Apache and MySql on AWS cloud servers.
- Involving in Database and Server Maintenance.
- Identifying and solving issues caused by plugins or feeds under PHP, MySQL, HTML, CSS, Javascript and Jquery technology.
- Responsible for supporting existing applications, developing new features for existing applications, and developing new web-based applications.
- Social network API's integration.
- Build a custom WordPress application.
- Involved in using git for version management and the workflows associated with them (branching and merging).
